**Subject:** Special-Lite Releases Updated Catalog on CD for 2012

Special-Lite, Inc. has released the electronic version of their 2012 product catalog to provide architects, designers, contractors, building owners and maintenance directors the complete range of information needed to evaluate their heavy-duty entrance system products.

This free CD includes the full Special-Lite print catalog plus expanded features such as exportable AutoCAD® drawings (available in R14 format); a photo gallery showing entrance installations in a variety of environments; and links to guide specifications, product estimate/order forms, and installation instructions at [www.special-lite.com](http://www.special-lite.com).

The 2012 catalog features updated product literature and a new sales sheet for Special-Lite's recently introduced Adjustable Bottom Brush. This hardware option can be factory-installed or retrofitted in Special-Lite Flush and Monumental Doors for improved weather

###

sealing on out-of-position floors in new construction and normal settling of floors in older buildings.

The CD catalog also features the company's Express Program, which offers expedited delivery and special pricing on their most popular doors—the SL-17 FRP Flush, SL-14 Medium Stile Monumental and SL-15 Wide Stile Monumental Doors. Program details and links to the current order forms are provided.

For a copy of the Special-Lite 2012 Product Catalog on CD, please call 1-800-821-6531 or order online at [www.special-lite.com](http://www.special-lite.com).

### **About Special-Lite, Inc.**

Based in Decatur, Michigan, Special-Lite manufactures complete entrance systems consisting of flush, monumental, wood grain doors, colonial doors, panels and framing for new construction and replacement installations in educational, commercial, institutional, industrial and municipal applications. The company was founded in 1971 and pioneered the use of fiberglass reinforced polyester (FRP) material for door skins in the early 1980s, and today is the largest volume producer of FRP doors in the U.S. Special-Lite's entrance products were the first to earn GREENGUARD Indoor Air Quality Certification, including the stringent Children & Schools Standard.
