Subject: Architects and specifiers earn AIA/CES Health, Safety & Welfare Learning Unit credit through free commercial doors training program from Special-Lite

Special-Lite, Inc. has introduced a free American Institute of Architects Continuing Education System (AIA/CES) program, Heavy-Duty Flush Doors for Commercial Entrances. Developed specifically for architects and specifiers involved in selecting and installing doors in commercial applications, the program reviews common types of heavy-duty flush doors used in commercial and institutional facilities. Special-Lite representatives conduct the one-hour course at the participants' location or other site in arrangement with the participants. Attendees receive one AIA/CES Health, Safety & Welfare (HS&W) Learning Unit credit upon completion of the course.

-more-

The program is designed to help participants view a building entrance as a system of interdependent components; understand the physical forces and environmental factors affecting door and entrance service life; become familiar with common flush door design approaches and construction methods; and appreciate the advantages and disadvantages of types of exterior flush doors commonly used in commercial applications.

The Heavy-Duty Flush Doors for Commercial Entrances program is approved by the AIA, and Special-Lite is an AIA/CES Registered Provider.

About Special-Lite

Special-Lite, Inc. manufactures a complete line of heavy-duty flush, monumental, and colonial-style doors, panels, and framing products. Architects, contractors, and facility managers have relied on Special-Lite since 1971 for complete entrance solutions to schools, offices, churches, restaurant and retail facilities, water and wastewater treatment plants, and other commercial facilities. All Special-Lite doors and frames are custom solutions, made to order. Unique configurations such as arched doors and transoms, odd sizes, unequal pairs, monorail cutouts or Dutch doors are all available. Special-Lite doors and panels are available in a variety of face sheet materials and finishes, plus the company also offers framing, hardware, and vision lite kits to match.

For more information about Special-Lite's new AIA/CES program, contact your Special-Lite representative or Special-Lite, Inc. at P.O. Box 6, Decatur, MI 49045. Or call 800-821-6531, fax 800-423-7610, or visit www.special-lite.com.
