

Announcing:

New Kynar® Paint Colors Match Our AMP Wood Stains

Every AMP Wood Stain Now Has a Complementary Kynar® Paint Color

Special-Lite AMP Colonial (SL-18) and Wood Grain (SL-19) Flush Doors achieve the rich look of real stained wood without all the disadvantages of real wood. And now, you can specify an anodized aluminum finish to faithfully harmonize with any of our wood stain colors...and complete the effect.

In addition to the six anodized aluminum finishes we have traditionally offered, vision lite kits, stiles and rails are now available in Kynar colors to complement our standard AMP wood stain colors. These new finishes are also available on all of our framing and panel products for an inviting, color-matched entrance.

Enrich the Appearance of Your AMP Entrances

See for yourself! Request both of our sample sets today—AMP Standard Colors (Item 5569) and AMP Wood Stain Matching Paint Colors (Item 5587). Simply call 1-800-821-6531 or order directly from our website by using our online order form at www.special-lite.com.
