Subject: Special-Lite Releases Updated Aluminum Flush Door Brochure

Special-Lite, Inc. has published an updated brochure highlighting key features of their Aluminum Flush Door for commercial and industrial facility applications subjected to moderate to heavy traffic.

The brochure revision reports that the Special-Lite® SL-16 Aluminum Flush Door has been tested to Florida Building Protocols TAS 201, 202 and 203 making their product hurricane-rated and Florida approved, so it can now be specified for commercial buildings in coastal areas.

Special-Lite's newest hardware option, the Adjustable Bottom Brush, has also been included in the updated brochure. The patent-pending SL-301 Adjustable Bottom Brush can be specified for new or existing Special-Lite Aluminum Flush Doors to compensate for out-

###

of-position floors in new construction as well as normal settling of older buildings to reduce air infiltration and energy loss under the door bottom.

For more information about Special-Lite's Aluminum Flush Doors and a free copy of the new Aluminum Flush Door brochure, please call Special-Lite at 1-800-821-6531 or visit www.special-lite.com.

About Special-Lite, Inc.

Based in Decatur, Michigan, Special-Lite manufactures complete entrance systems consisting of flush, monumental, wood grain doors, colonial doors, panels and framing for new construction and replacement installations in educational, commercial, institutional, industrial and municipal applications. The company was founded in 1971 and pioneered the use of fiberglass reinforced polyester (FRP) material for door skins in the early 1980s, and today is the largest volume producer of FRP doors in the U.S. Special-Lite's entrance products were the first to earn GREENGUARD Indoor Air Quality Certification, including the stringent Children & Schools Standard.
