**Subject:** Special-Lite Releases Updated Corporate Capabilities Brochure

Special-Lite, Inc. announces the availability of their updated corporate capabilities brochure, *Complete Entrance Systems with More Life*, which showcases the company's complete line of entrance products, custom capabilities, and benefits of their unique door design as well as their recent achievement of GREENGUARD Certification™.

The brochure focuses on the features and benefits of Special-Lite's complete line of door and framing products for commercial entrances. The main categories covered are monumental doors, aluminum flush doors, FRP flush doors, AMP flush doors (which includes a colonial-style model), and framing products.

-more-

The literature explains how Special-Lite heavy-duty doors are specially engineered to deliver the longest possible service life with minimal maintenance, even under extreme use and abuse. This unique design also contributes to sustainable attributes, especially the impact on indoor air quality throughout their doors' entire life cycle. Special-Lite entrance products are the first to be GREENGUARD Indoor Air Quality Certified®. Additionally, their doors feature maintenance-friendly finishes that eliminate the need to sand down or repaint the doors—a process that has the potential to produce dangerous airborne particulates and fumes. And their stain-resistant finishes allow graffiti to be easily removed with environmentally responsible cleaners.

Special-Lite's custom capabilities—from unique configurations to custom colors in order to match the architectural character of any installation—are also reviewed. And, Special-Lite offers their technical staff to help with design ideas, finish samples, submittal drawings, or computer-generated concept renderings.

### **About Special-Lite**

Special-Lite, Inc. manufactures a complete line of heavy-duty flush, monumental, colonial-style doors, panels, and framing products. Architects, contractors, and facility managers have relied on Special-Lite since 1971 for complete entrance solutions for schools, student housing, hospitals, churches, retail, and other commercial facilities. All Special-Lite doors and frames are custom solutions, made to order. Unique configurations such as arched doors and transoms, odd sizes, unequal pairs, or Dutch doors are all available. Special-Lite doors and panels are available in a variety of face sheet materials and finishes, plus the company also offers framing, hardware, and vision kits to match.
