**Subject:** Updated Special-Lite® FRP Flush Door brochure highlights addition of new SL-20 Sandstone-textured FRP skins

Special-Lite, Inc. has announced that their FRP Flush Doors brochure showcasing their line of heavy-duty fiberglass reinforced polyester (FRP) flush doors for commercial entrances has been updated to include the recently introduced SL-20 sandstone-textured FRP flush door.

The new SL-20 model has an exclusive fine-grained texture with a more subtle surface finish and less glossy appearance than Special-Lite's popular SL-17 pebblegrain FRP flush door that make it better suited to design-driven applications not expected to see deliberate abuse or vandalism.

The brochure explains why the unique design and construction materials make Special-Lite doors last longer and require less maintenance thus providing lower lifecycle cost. These attributes also make them more suitable for green construction

-more-

than wood, metal, and other FRP doors. For example, unlike wood or metal doors, Special-Lite FRP doors do not rust, corrode, crack, split, peel, or rot, and their prefinished surfaces never need painting or refinishing. In addition, they have a 10-year, 100% parts and labor warranty.

For more information about Special-Lite's FRP doors and a free copy of the FRP Flush Doors brochure, contact Special-Lite, Inc., P.O. Box 6, Decatur, MI 49045. Or call 800-821-6531, fax 800-423-7610, or visit [www.special-lite.com](http://www.special-lite.com).

### **About Special-Lite, Inc.**

Based in Decatur, Michigan, Special-Lite manufactures complete entrance systems consisting of flush, monumental, wood grain and colonial doors, panels and framing for new construction and replacement installations in educational, commercial, institutional, industrial and municipal applications. The company was founded in 1971 and pioneered the use of fiberglass reinforced polyester (FRP) material for door skins in the early 1980s, and today is the largest volume producer of FRP doors in the U.S. Special-Lite® Entrance Products were the first to earn GREENGUARD Indoor Air Quality Certification, including the stringent Children & Schools Standard.

The GREENGUARD INDOOR AIR QUALITY CERTIFIED Mark is a registered certification mark used under license through the GREENGUARD Environmental Institute.
