Subject: Special-Lite announces availability of new adjustable continuous hinge

The new Special-Lite® SL-120 Continuous Hinge provides a simple, easy-to-install solution to compensate for out-of-plumb jambs in both new construction and door replacement. The SL-120 compensates for when rough openings or existing framing are not perfectly square. With adjustability of up to 1/8" in either direction or opposite directions top to bottom, the hinge allows Special-Lite flush doors to hang properly in less than perfect openings.

The SL-120 has survived abusive testing beyond 3 million cycles, matching the durability of Special-Lite flush doors. The Special-Lite hinges are covered by the same 10-year warranty as the Special-Lite doors.

-more-

The hinge is available with standard Class 1 anodized finishes in clear and dark bronze, with optional colors available. Hinge caps can be painted to match door or frame colors.

For a free copy of Special-Lite's Adjustable Hinge sales sheet, call 800-821-6531, fax 800-423-7610, or visit www.special-lite.com/techdata/sales.htm.

About Special-Lite, Inc.

Based in Decatur, Michigan, Special-Lite manufactures complete entrance systems consisting of flush, monumental, wood grain and colonial doors, panels and framing for new construction and replacement installations in educational, commercial, institutional, industrial and municipal applications. The company was founded in 1971 and pioneered the use of fiberglass reinforced polyester (FRP) material for door skins in the early 1980s. Today, Special-Lite is the largest volume producer of FRP doors in the U.S. Special-Lite® Entrance Products were the first to earn GREENGUARD Indoor Air Quality Certification, including the stringent Children & Schools Standard.

The GREENGUARD INDOOR AIR QUALITY CERTIFIED Mark is a registered certification mark used under license through the GREENGUARD Environmental Institute.
