Introducing the Sandstone-Textured SL-20 FRP Door.

The Special-Lite® SL-20 FRP Door has been updated to feature our new, exclusive, fine-grained “Sandstone” textured face sheets that provide an aesthetically-pleasing surface finish for entrance locations not expected to see deliberate abuse or vandalism. As with the original SL-20, the new textured SL-20 features the same construction as the super-durable SL-17 FRP, but with our new, exclusive, “Sandstone” textured FRP face sheet.

Features and Benefits

- Face sheets are .120” thick and truly flush with door edges
- Face sheets are available in four through colors, or can be painted to match our existing FRP colors, or any color desired
- Door perimeter available in Class I anodizing or Kynar painted finish
- Durable painted finish for low maintenance and easy cleaning
- Poured-in-place urethane core for superior thermal performance
- Internal hardware reinforcements for the exact hardware specified
- Corrosion resistant for humid or corrosive locations
- All extrusions are 100% recycled aluminum content (pre-consumer)
- GREENGUARD® Certified to the Children and Schools Standard™

The GREENGUARD INDOOR AIR QUALITY CERTIFIED Mark is a registered certification mark used under license through the GREENGUARD Environmental Institute.
